

# IJME now seeks sponsors.

## The Leading Journal of Engineering, Applied Science and Technology

The International Journal of Modern Engineering (IJME) is a highly-selective, peer-reviewed journal covering topics that appeal to a broad readership of all branches of engineering, engineering technology, and other related fields.

IJME is steered by a distinguished board of directors and is supported by an international review board consisting of prominent individuals representing many well-known universities, colleges, and corporations in the United States and abroad.

To maintain a high-quality journal, manuscripts that appear in the IJME Articles section have been subjected to a rigorous review process. This includes blind reviews by three or more members of the international editorial review board, followed by a detailed review by the IJME editors.
